

# (SR) IT PROJECT MANAGER (M/F/X)

## M/F/X - BERLIN

### We are HERE

Ever checked in somewhere on social media? Ever tracked your online orders? You might be using HERE Technologies every single day without even realizing it. You can find us everywhere: in vehicles, smartphones, drones or third-party apps. We believe that with the right people, we will continue to be a game-changer in the technology industry and improve the daily lives of people around the world.

HERE enables people, enterprises and cities around the world to harness the power of location and create innovative solutions that make our lives safer and more efficient. We transform information from devices, vehicles, infrastructure and other sources into real-time location services that play a key role in how we move, live and interact with one another.

### The Team and the role

As a member of the Operations Enablement team, the project manager will support enterprise-wide initiatives focused on uplifting, building and scaling operational capabilities that enable Here's business strategy. This role should drive project management discipline and change management methodology to meet project deliverables and sustainable change.

### Essential job functions:

- Leads virtual cross functional teams through the lifecycle of the project from initiation through to delivery and finalizing business case; involving all relevant stakeholders
- Manage project risks and issues, effectively communicate mitigation plans and escalate issues where appropriate; serve as the key escalation point for all critical issues and initiatives
- Manage the day-to-day project activities and lead the project management team meetings; facilitate and directly drive critical issue resolution and eliminate roadblocks.
- Provides status reporting regarding project milestones, deliverable, dependencies, risks and issues, communicating across leadership;
- Collect, analyze, and evaluate data to track project performance and important developments; synthesize raw data into digestible and actionable information
- Create dashboards to measure performance along a number of different financial, strategic, and competitive dimensions
- Research best practices within and outside the organization to establish benchmark data and use continuous process improvement disciplines to achieve results
- Design communication and training strategies, including identifying the appropriate learning process, timing, execution, and delivery

## What you should bring along (qualifications)

You have a bachelor's degree or equivalent experience in Project management qualification and the following:

- Minimum of 7+ years' experience in IT project management (e.g., cyber security, privacy, GDPR), preferably large global projects
- Project management qualification (PMP) or equivalent
- Experience in successfully leading projects and programs to on-time, on-schedule and within budget
- Ability to present to executive sponsors and demonstrated excellent communication skills; both written and oral for technical staff, non-technical staff and all levels of management
- Ability to influence and gain buy-in from executive sponsors, team members, stakeholders and peer
- Proven ability to work creatively and analytically in a problem-solving environment demonstrating teamwork, innovation and excellence
- Self-motivated, decisive, with the ability to adapt to change and competing demands
- Experience in change management and conflict management
- Project plan creation, using PM tool (e.g., MS Project)
- Working knowledge of Excel, collaboration tools (e.g. sharepoint)

## What do we offer

- Competitive salary & Benefits (including Flexible working hours, Public transportation subsidy, etc).
- Challenging problems to solve.
- Work that makes a difference in the world.
- Freedom to decide how to perform your work.
- Variety in the types of projects.
- Collaborative, Supportive Colleagues.

Our culture is founded on openness, collaboration and honesty, with colleagues who are brilliant in their field, resilient and above all, strive for the best. One team, where everyone makes a difference and everyone is heard. Up for the challenge? We are looking forward to receiving your application.
